EXAMINER'S AMENDMENT

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- Claim 11, line 3, change "insulating" to --insulate--.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-13, the allowability in combination with the other claimed features is because nowhere in the prior art is there a micro-mechanical system having the capacitance to vary as a function of the sidewall overlap area of the two movable beams rotating with respect to one another. Regarding claims 14-25, the allowability in combination with the other claimed features is because nowhere in the prior art is there a micro-mechanical system having the capacitance to vary as a function of the total sidewall overlap area of the movable beams.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of Pertinent Prior Art

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
